1) Asterisk at the ordinal number identifies that within the scope of accreditation, the certification body is allowed to include new/updated/revised technical specifications listed in the relevant conformity assessment procedure for the assessment of conformity with basic requirements. The precondition is that the product area, regulations and conformity assessment procedure must not change.

2) Current list of standards/normative documents is available from the Certification Body (e.g. from the Certification Body Manager or on the website of the Certification Body).

Explanations:

GR	Government Regulation
OTP ŽD	Railway Infrastructure Administration - General Specifications
TP	Road Construction Specifications
TKP	Ministry of Transport of the Czech Republic – Road Construction Quality Specifications
TKP ČD	Czech Railways – Construction Quality Specifications
TN	Technical manuals for the assessment of conformity of construction products
Directive	Directive of the European Parliament and of the Council
Regulation	Regulation (EU) of the European Parliament and of the Council
RK	Commission Decision
