CERTIFICATE OF ACCREDITATION

No. 44/2026

SPECION, s.r.o.
with registered office Květnového vítězství 332/31, Chodov, 149 00 Praha 4
Company Registration No. 48112836

for the Calibration Laboratory No. 2429
Calibration Laboratory

Scope of accreditation:

Calibration in the field of air temperature and humidity to the extent as specified in the appendix to this Certificate.

This Certificate of Accreditation is a proof of accreditation issued on the basis of assessment of fulfillment of the accreditation criteria in accordance with

ČSN EN ISO/IEC 17025:2018

In its activities performed within the scope and for the period of validity of this Certificate, the abovementioned Accredited Body is entitled to refer to this Certificate, provided that the accreditation is not suspended and the Accredited Body meets the specified accreditation requirements in accordance with the relevant regulations applicable to the activity of an accredited conformity assessment body.

The Certificate of Accreditation is valid until: **26/01/2029**

Prague: 26/01/2026

Signed in the Czech original:
Gor Petrosjan on 26/01/2026

Jan Velíšek
Director of the Department
of Testing and Calibration Laboratories
Czech Accreditation Institute

This translation of the Czech original has been issued by: Eliška Frycová

Accredited entity according to ČSN EN ISO/IEC 17025:2018:

SPECION, s.r.o.
CAB number 2429, Calibration Laboratory
Květnového vítězství 332/31, Chodov, 149 00 Praha 4

CMC for the field of measured quantity: Temperature

Ord. number ₁	Calibrated quantity / Subject of calibration	Nominal range				Parameter(s) of the measurand	Lowest stated expanded measurement uncertainty ²	Calibration principle	Calibration procedure identification ₃	Location
		min	unit	max	unit					
1*	Indicating thermometers, temperature measuring chains including thermometers of thermal and climatic chambers and enclosures, measurement of temperature in equipment with temperature and humidity control	-70 °C	to	-40 °C			0.40 °C	Comparison with a reference digital thermometer in a climatic chamber	KP01	
		-40 °C	to	100 °C		0.35 °C				
		100 °C	to	180 °C		0.40 °C				
		180 °C	to	250 °C		0.90 °C				

¹ Asterisk at the ordinal number identifies the calibrations, which the Laboratory is qualified to carry out outside the permanent laboratory premises.

² The expanded measurement uncertainty is in accordance with ILAC-P14 and EA-4/02 M a part of CMC and it is the lowest value of the respective uncertainty. If not stated otherwise, its coverage probability is approx. 95 %. If not stated otherwise, the uncertainty values stated without a unit are relative to the measured value. The uncertainty value stated herein is based on the best conditions achievable by the laboratory; the uncertainty value of a specific calibration may be higher depending on the conditions of such a calibration. For identical extreme values of adjacent ranges, the lower uncertainty value always applies.

³ If the document identifying the calibration procedure is dated only these specific procedures are used. If the document identifying the calibration procedure is not dated, the latest edition of the specified procedure is used (including any changes).
