Ordinal number <sup>1)</sup>	Process/service name	Certification scheme	Specification of standards (normative documents)
2.4	Welding process in the manufacture, installation, assembly, maintenance, repair, research and development of furniture and manufacturing industry products		
2.5	Welding process in the manufacture, installation, assembly, maintenance, repair, research and development in the field of electric energy, gas and heat energy, including distribution.		
2.6	Welding process in the manufacture, installation, assembly, maintenance, repair, research and development in the field of construction works.		

- 1) Asterisk at the ordinal number identifies that within the scope of accreditation, the certification body is allowed to include new/updated/revised normative documents from time to time. Updated list of activities provided within the scope of accreditation is available at the Certification Body from the Certification Body Manager.

- 1) Asterisk at the ordinal number identifies that within the scope of accreditation, the certification body is allowed to include new/updated/revised technical specifications listed in the relevant conformity assessment procedure for the assessment of conformity with basic requirements. The precondition is that the product area, regulations and conformity assessment procedure must not change.
- 2) Updated list of standards/normative documents is available from the Certification Body from the Certification Body Manager.
