1) the asterisk next to the ordinal number indicates that the certification body can continuously include new/current/revised technical regulations within the scope of accreditation, which are listed in the conformity assessment procedure against which conformity with the basic requirements is assessed. The assumption is that the product group, the legal regulation and the conformity assessment procedure do not change. Updated list of activities in frame of flexible scope of accreditation is available at the Certification Body (at the Certification Manager).

2) the current list of standards/normative documents is available in the certification body (at the head of the certification body).

Explanatory notes:

Directive – Directive of the European Parliament and of the Council

NV – Government Regulation – Regulation of the European Parliament and of the Council (EU)

Regulation (EU) – EU Commission Regulation

RK – Commission Decision

AVCP – Assessment and Verification of Constancy of Performance

FPC – Factory Production Control (according to Regulation (EU) No 305/2011)
